Assembling Your Langstroth Hive Body & Super

What you will need for Assembly:
• 2 Ends
• 2 Sides
• Hammer
• Nails (sold separately)
• Construction Square

Step One:
Take 1 side and 1 end and put the fingers together. Make sure your hand holds are facing up and facing out.

Step Two:
Put a construction square onto each inside corner of the box. Put nails into the pre-drilled area on fingers before nailing the final side/end. A box that is not square will not sit properly on the hive. Once square, pound in your nail.

What you will need for Assembly:
• 2 Ends
• 2 Sides
