# ***The Gold Standard In Honey Bee Nutrition!***

- 58% Crude Protein
- Scientifically Formulated Complementary Bee Feed
- Contains No Animal By-Products
- Contains No Natural Pollen

Ultra Bee provides the high levels of protein necessary for broodrearing. Use Ultra Bee to build colonies in late winter or early spring to prepare for pollination or any time to maintain/increase brood production prior to a honey flow.

**Storage:** Ultra Bee is hygroscopic. Storage under cool and dry conditions is strongly recommended.

**Feeding In Dry Form:** Feed dry if the weather is warm enough for the bees to fly. Place Ultra Bee in a box or shallow super with a bottom. A few pieces of wood or other objects should be placed on top of the Ultra Bee to provide a place for bees to groom. The box should be placed in an open drum or pail tipped on its side to protect Ultra Bee from the wind, rain and dew. Feed approximately 1.5 pounds (680 g) per colony. Use Ultra Bee dry in the spring to prevent bees that are kept near cattle feed lots from robbing cattle feed. Try our pollen substitute feeder that holds 34 pounds (15.4 kg) of dry feed. Visit our website at [www.mannlakeltd.com](http://www.mannlakeltd.com) for details!

**Feeding In Patty Form:** Makes approximately 50 pounds (22.7 kg) of patty material. Combine 12 pounds (5.4 kg) of granulated sugar with 20 pounds or 1.73 gallons (9.1 kg or 6.5 L) of HFCS, Medium Invert or Pro-Sweet Syrup Blend. (Do not use O Sucrose or the patties will become hard.) Mix well. Slowly add 15 pounds (6.8 kg) of dry Ultra Bee. Using wet hands, press 1 to 3 pounds (454 g - 1.4 kg) of mixture onto a 10" x 10" (25.4 cm x 25.4 cm) sheet of wax paper. Place another sheet of wax paper on top of the patty and cut 4 or 5 slits in the paper to increase access to the patty. Place the patty on the top bars of the hive with the slits facing down.

## **Guaranteed Analysis:**

- Crude Protein Not Less Than 58%
- Crude Fat Not Less Than 5%
- Crude Fiber Not More Than 3%
- Moisture Not More Than 6%
- Ash Not More Than 6%

## **For oral honey bee use only • Not for human consumption**

**Ingredients:** Plant Protein Products, Processed Grain By-Products, Roughage Products, Canola Oil, Lemongrass Oil, Sodium Chloride, Vitamin A Supplement, Vitamin D<sub>3</sub> Supplement, Vitamin E Supplement, Ascorbic Acid Stabilized, Zinc Sulfate Monohydrate, Menadione Sodium Bisulfite Complex, Riboflavin, Pyridoxine Hydrochloride, Folic Acid, Biotin
